

# Clean-Kill™ Mouse Trap

## Instructions

1. Open the bait door located on the back of the trap.
2. Bait the trap using peanut butter or anything high in protein like chocolate, hazelnut spread, etc. in the bait trough provided. Be sure to use a Q-tip, toothpick or another tool to bait so your scent is not transferred onto the trap.
3. Close the bait door.
4. Hold down the setting button while pulling up on the Kill-Gate™ to set the trap.
5. Place the trap where you have seen signs of rodent activity or along the wall where rodents primarily travel. Two traps should be used and placed back to back lengthwise against the wall.
6. After the mouse is caught, properly dispose of the dead rodent. The trap can either be discarded or reused.
